An E&E Publishing Service

EnergyWire covers shale oil and gas, deepwater and arctic drilling, enhanced oil and gas recovery, environmental concerns, pipeline infrastructure, finance, regulatory and legislative issues and much more.

EnergyWire -- Wed., May 30, 2012 -- [Read the full edition](#)

1. ENFORCEMENT: EPA's Dimock results cloud Pa.'s pollution case

Dimock, Pa., has gone from being seen as the town destroyed by drilling to being known as the place where Cabot Oil and Gas Corp. got "crucified." After a high-profile round of testing by U.S. EPA, the drilling industry is touting the headlines that call Dimock's water "safe." Those headlines, though, ignore the reality that Cabot did pollute the water in Dimock, at least according to the Pennsylvania Department of Environmental Protection. Cabot says it didn't.

THIS MORNING'S STORIES

2. NATURAL GAS: Public backlash is No. 1 threat to unconventional revolution -- IEA

3. WATER POLLUTION: Range accused of providing misleading data to Pa. families

4. OFFSHORE DRILLING: One firm abandons exploration off Cuba after well yields no oil

5. ENERGY MARKETS: Spanish company will spend billions to grow business in Americas

6. DEEPWATER DRILLING: 'Christmas trees' set to grow at sea, but rigs won't keep up -- report

7. WORKFORCE: Sagging natural gas production is dragging down industry growth in Canada

8. ARCTIC: Robust polar ice could delay Shell drilling projects

9. NATURAL GAS: N.Y. landowners in limbo as they duel for higher new lease rates

10. WATER: Companies clean up with technologies that allow wastewater reuse

11. OFFSHORE DRILLING: Carbon dioxide injections considered to enhance oil

recovery in marine fields
